

# MOHAMMAD ABDULLA

SOFTWARE ENGINEER

## Profile

I'm a versatile **Software Engineer and an AWS Solutions Architect** who worked in healthcare systems and smart shopping carts. With a knack for problem-solving and a passion for innovation, I thrive in dynamic environments. I excel in developing secure, scalable software solutions and architecting cloud-based architectures on AWS. My strong communication skills and commitment to continuous learning drive me to deliver impactful results and stay ahead in the ever-evolving tech landscape.

## Experience

- |                       |   |
|-----------------------|---|
| <b>2023 - Present</b> | <b>Wowly</b><br>Software Engineer, Amman<br>WOWLY is an amazon-go like project, where the customers in the shopping malls can start and finish shopping on the trolley including checkout, i built a complete smart POS solution, going from admin panel & multi level permissions/roles & dashboards, to the pos system on the cart & Visa machine integration & data synchronization to github actions and CICD's and building a complete reliable & scalable AWS infrastructure. |
| <b>2020 - 2023</b>    | <b>Nixpend</b><br>Software Engineer, Amman<br>In Nixpend i worked on building a healthcare app integrated with ERP system to manage all patients & practitioners procedures & insurance & accounting.   |

## Interests

### Kali Linux & Penetration Testing

I'm not a PenTester nor a kali linux wizard, but I'm really interested in professionally exploiting vulnerabilities of a computer system.

## Skills

### Frontend

Angular  
CSS & CSS frameworks  
React

### Backend

Nodejs/Express  
Nosql (Mongo)  
SQL(mysql/postgresql)  
ORM (SEQUELIZE)

### Cloud

AWS Solutions Architect

### Linux & Containerization

Worked on setting up sql databases and managing containerized applications using docker on linux

### Programming Languages

Python/Django  
Javascript  
Typescript

## Education

- 2017 - 2021**      **Computer Systems And Networks Engineering**  
Al-balqa Applied University, Alzarqa  
.
- 2016 - 2017**      **AL-naphees High school**  
alnaphees, amman  
.

## Volunteering

### Member of CNE | BAU University

During the university i joined the CNE where we helped other computer engineering students in the studying curriculums as well as guiding students in their freshman year and other activities.
